

Best Living Systems

(Phone App Enabled!)

## Breathe Easier!

**Destroys Germs & Allergens with MCI™** Exclusive MCI™ (Multi-Cluster Ionization) Technology actively attacks mold, bacteria, and viruses in the air and on surfaces.

### Eliminates Odors & VOCs with PCO

The PCO CELL with quad-metallic coating and a non-ozone LED lamp breaks down odors and harmful chemicals for fresher air.

### Traps Dust, Dander & Smoke with HEPA filtration

The HEPA-grade MERV 16 replaceable 3-way filter captures fine particles, while activated carbon removes odors and gases. (CADR: 300 m³/hr | Replace annually, vacuum quarterly)

### Knows When to Work Harder

A built-in VOC Sensor detects pollution and automatically increases fan speed to keep your air clean—without you lifting a finger!

### Quiet, Customizable, Comfortable

A brushless, ultra-quiet FAN offers five speeds and AUTO mode for effortless, whisper-quiet operation.

## Ideal For...

Homes \* Offices \* Schools \* Day-Care Facilities  
Nursing Homes \* RVs \* Retail Stores  
Cruise Ships \* Church Sanctuaries  
Anywhere you need clean air!
